

Gould's Jet Pump

Designed for shallow or deep well applications.

The J5 is specifically designed for homes, farms, cottages, and booster services. Its convertible design may be used on shallow or deep well applications.

This pump features a back pull-out design, two compartment motor for easy access to wiring, nozzle clean out plug in shallow well adapter, and is corrosion resistant.

Serviceable:

- Back pullout design for service without disturbing piping.
- Two compartment motor for access to wiring and replaceable components.
- Nozzle clean out plug in shallow well adapter.
- Corrosion resistant, plastic tubing and fittings are easily removed for cleaning. Premium O-ring design fittings need only be hand tight to seal.

Convertible:

May be used on shallow or deep well applications.

Corrosion Resistant:

Electro-coat paint is baked on.

Protected Mechanical Seal: Diaphragm retains water in the casing to ensure the mechanical seal can never run dry.

Excellent Air Handling Ability:

After initial priming the pump has the ability to re-prime itself.
